

## Preparation of: Construction Support Plans

FORA's Capital Improvement Projects require:

- 1) Earth disturbing activities.
- 2) Contingencies for Unexploded Ordnance (UXO)
- 3) With the expectation of Munitions Removal

*This activity is separate from the ESCA program*

## What could happen during Construction at: Eucalyptus Road Infiltrators South Boundary Road

## **ARCADIS US Inc. + Weston**

- 10 years experience on Fort Ord
- ESCA Team consultant leader
- Current Master Services Agreement in Place
- Estimate affirmed by Reimer Consulting Associates, Inc. & FORA Staff

## Simple Scope Explanation:

- Create Maps and compile background data
- Prepare utility installation and maintenance guidelines for jurisdictions
- Prepare Construction Support Plans – *Needed for DTSC, ARMY, and EPA Permits on FORA CIP Projects:*
  - **Eucalyptus & GJMB Infiltrator Repair** (Munitions Response Area 1-4)
  - **South Boundary Road Corridor**
- Provide Estimates for on-call Construction Support and After-Action Reporting.

## Two Service Work Orders – Not to Exceed:

SWO-E1 - Seaside MRA 1-4	\$32,940
SWO-E2 - South Boundary Road Corridor	\$40,860

## Staff Recommends:

**Authorize Executive Officer to execute Work Authorization AUS-FORA-2018-051118 to the Environmental Services Cooperative Agreement Remedial Services Agreement, Contract Change Order #5, Master Services Agreement with **ARCADIS** US, Inc. for an amount **not to exceed \$73,800** to provide supplemental Unexploded Ordnance Construction Support for the FORA CIP.**
