FORA OPENS GENERAL JIM MOORE BOULEVARD INTERSECTIONS

The General Jim Moore Boulevard and Broadway Avenue (Obama Way) intersection has now been signalized. Also, the gates at Hilby Avenue and General Jim Moore Boulevard intersection and San Pablo Avenue and General Jim Moore Boulevard intersection have been opened. These intersections are now open to traffic at the direction of the City of Seaside.

The Broadway Avenue and General Jim Moore Boulevard signal lights have replaced the temporary stop signs at this intersection. The speed limit on General Jim Moore Boulevard south of Coe Avenue will be enforced at **45 MPH**. Those travelling this corridor are asked to be aware that signal lights are fully operational and intersections are open to traffic. FORA funded recent work on General Jim Moore Boulevard and Eucalyptus Road through an American Recovery and Reinvestment Act (ARRA) grant obtained in 2009 from the Economic Development Administration and FORA's local match to the grant.
