

June 12, 2017

Job No.: 2146.00

WHITSON ENGINEERS

6 Harris Court
Monterey, CA 93940

**ADDENDUM NUMBER 2
REQUEST FOR PROPOSALS (RFP)
ENVIRONMENTAL IMPACT STATEMENT (EIS)/ENVIRONMENTAL IMPACT REPORT (EIR)
PROPOSED EASTSIDE PARKWAY PROJECT**

- The details for the non-mandatory Pre-Proposal meeting to review the RFP elements and Scope are as follows:

June 14th at 2:00 at FORA's office, 920 2nd Ave Suite A, Marina, CA 93933 or
via conference call at 1-641-715-3273, code 348636#.

Questions Received and Responses

- A question has been asked about the cost limitation listed in the RFP
 - FORA's approved limit for the preparation of a complete Eastside Parkway EIS/EIR is \$568,500, with an estimated budget of \$297,700 for the scope work included in this RFP.
- The RFP mentions "qualified vendor notification" as occurring on 06/7. Does this mean a firm must be prequalified to bid on this opportunity? Or can any firm bid that meets the qualifications listed in the RFP?
 - Any firm may submit statement of qualifications and a proposal. Responsive Applicants will be evaluated. A short list of qualified applicants will be selected for notification.
- I noticed that Denise Duffy & Associates prepared the Draft Biological Report. Are firms with prior work on the project (like DD&A) allowed to bid on the EIR/EIS or are they precluded?
 - The RFP is open to all firms.

Sincerely,

Andrew Hunter
