

Fire Fighting Enhancement

In July 2003, the FORA Board authorized the lease-purchase of five pieces of fire-fighting equipment:

- Four 4x4 fire engines lease/purchased for fire departments in the cities of Marina, Seaside, Monterey & Ord Military Community, & a Water tender for Salinas Rural Fire Department.
- The lease-purchase has been paid in full.
- This equipment enhances the ability of these fire departments to respond to wildland fires that may occur within the former Fort Ord.
- The equipment was utilized during the 2005 Parker Flats habitat restoration burn.
