

Resolution 13-02

Resolution of the Fort Ord Reuse)
Authority (FORA) Board establishing a)
formula to determine FORA's annual)
basewide development fee schedule and)
Community Facilities District (CFD))
Special Tax rates)

THIS RESOLUTION is adopted with reference to the following facts and circumstances:

- A. FORA has adopted a Basewide Community Facilities District ("CFD" or "CFD Special Tax") to fund, together with other revenues, the FORA CIP. Section 7 (ii) of the Implementation Agreement provides that the FORA development fee and CFD Special Tax to fund CEQA Mitigation Measures ("FORA CIP") are limited to the difference between the revenues needed for such purposes and the revenues otherwise reasonably available to achieve those purposes; and
- B. FORA and its member Jurisdictions have twelve years of experience with the Basewide Development Fee Policy ("Policy") and CFD Special Tax; and
- C. FORA and the Army have executed an Environmental Services Cooperation Agreement ("ESCA") providing for FORA to manage base-wide environmental remediation (including ordnance removal) funded by the Army; and
- D. The Policy and CFD Special Tax provide resources to fund CEQA Mitigation Measures (FORA CIP) identified in the 1997 FORA Base Reuse Plan and CEQA Documents; and
- E. FORA and its member Jurisdictions agree that land sales and lease proceeds, FORA property tax revenues, grant funds and the Policy and CFD Special Tax continue to be the appropriate sources to fund CEQA Mitigation Measures and Board-determined base-wide obligations in FORA's CIP as identified in Section 1.1; and
- F. FORA recognizes the importance of calibrating the Policy and CFD Special Tax by incorporating all available resources to fund CEQA Mitigation Measures and Board-determined basewide obligations in FORA's CIP identified in Section 1.1; and
- G. FORA and its member Jurisdictions acknowledge the Policy and CFD Special Tax must be fair and equitable; and
- H. FORA has 1) achieved cost savings; 2) secured grants and other contributions to the base-wide mitigation measures from federal and state sources; and 3) loaned

monies to fund required projects that have reduced or deferred the demand for the original Policy and CFD Special Taxes; and

- I. The Base Reuse Plan emphasized the importance of job-creation and build-out of a balanced mix of community uses including commercial, residential and public facilities to achieve a desired jobs-housing balance; and
- J. FORA and its member Jurisdictions seek refinement to the list of authorized facilities that must be funded by proceeds from land sales and lease proceeds, grants, FORA property tax revenues, the Policy and CFD Special Tax; and
- K. Stakeholders recognize, given inherent uncertainties prevalent in Base Reuse Projects, that appropriate and reasonable cost contingencies are necessary and fiscally responsible; and
- L. FORA and its member Jurisdictions acknowledge the importance of adopting a formula to establish the Policy and CFD Special Tax rates. These revenue sources will fund, or partially fund, the CIP Program. That formula must account for all potential revenue sources and costs; and
- M. FORA and its member Jurisdictions agree that such a formula would reduce uncertainty to developers, increase efficiency in the FORA CIP process, and provide flexibility for FORA's fee program.

NOW THEREFORE the Board hereby resolves as follows:

1. Adjustment to the Policy and CFD special taxes.

I.1 The list of authorized CIP improvements (subject to escalation of costs through the San Francisco Construction Cost Index reported in the Engineering News Record, unless otherwise noted) to be funded by the Policy and CFD Special Taxes, after first applying all available FORA property tax revenues, grant funds, and land sales and lease proceeds, shall be limited to the following CEQA Mitigation Measures and corresponding base-wide obligations in FORA's CIP:

I.1.1 Transportation/Transit improvements, including regional improvements, off-site improvements, on-site improvements, and transit capital improvements identified in the Transportation Agency of Monterey County ("TAMC") FORA Fee Reallocation Study, dated April 8, 2005, or as subsequently updated by TAMC consistent with the FORA Fee Reallocation Study, in an amount not to exceed \$112,698,595 (as escalated) unless the obligation is otherwise reduced by TAMC and FORA.

I.1.2 Water Augmentation, which includes FORA's CEQA obligation for the approved water augmentation project and FORA's voluntary contribution to help offset water capacity charge increases. FORA's CEQA obligation is subject to annual escalation, while the voluntary contribution is not.

I.1.3 Habitat Management endowment requirements anticipated in the future Fort Ord Habitat Conservation Plan excluding costs related to an open space management plan or costs related to a regional trails system program.

I.1.4 Fire Fighting equipment ("Rolling Stock") lease-purchase of four fire engines and one water tender.

I.1.5 Other Costs and Contingencies shall be evaluated on a periodic basis in the same manner as other CIP costs and revenues. Other Costs and Contingencies are currently limited to the following:

- A contingency amount not to exceed 15% of the costs of Transportation/Transit improvements for MEC construction support, soil management plans, right of way acquisition, CEQA/CESA/NEPA mitigations, unknown subsurface conditions, self insurance retention amounts and transportation/transit improvement phasing.
- Additional Utility and Storm Drainage Costs which provide for restoration of storm drainage sites in State Parks land and relocation of utilities.
- Other Costs for PLL insurance costs.
- CFD Administration Expenses (including staff and consultant costs).

I.2 FORA will periodically adopt a formula to monitor and update the Policy and CFD Special Tax, as follows

I.2.1 The Policy and CFD Special Tax were originally designed to fund specific CIP improvements serving the overall base and local jurisdictions based upon mitigation measures required by the California Environmental Quality Act (CEQA). These mitigation measures are described in the Base Reuse Plan Environmental Impact Report (EIR) as well as the 1998 Settlement Agreement with the Ventana Chapter of the Sierra Club. This Resolution does not limit FORA's right or duty, or that of its member jurisdictions to raise sufficient funds to construct those CEQA Mitigation Measures. Furthermore, possible future FORA Board actions following on the Base Reuse Plan Reassessment Process may result in changes to FORA's CIP. This Resolution does not limit FORA's right to fund such changes through the Policy and CFD Special Taxes.

I.2.2 The FORA Board will consider adjustments to the Policy and CFD Special Tax after a comprehensive review of all potential costs and revenues. The process to consider such adjustments will be defined, predictable and transparent to all stakeholders. Adjustments to the Policy and CFD Special Tax will be approved only if they are demonstrated to be fiscally prudent and do not expose FORA or its member jurisdictions to unreasonable risk.

I.2.3 In accordance with the process set forth in part II of this resolution, commencing with Section 2.1, the FORA Board will update anticipated construction costs and revenues available to fund the facilities identified in section 1.1 above, which are eligible to be funded by the Policy and CFD Special Taxes, and corresponding adjustments to the Policy and CFD Special Taxes within 90 days of the effective date of FORA and its member Jurisdictions adopting Implementation Agreement Amendment #1, Spring 2014 as the second evaluation period, and thereafter every two years, or when an economic or other event causes a material change to a CIP cost or revenue assumption, in coordination with FORA CIP updates.

I.2.4 Adjustments to the Policy and CFD Special Tax shall be made upon receipt by the FORA Board of satisfactory, factual documentation describing the basis for the adjustment.

I.2.5 To expedite this review procedure, adjustments to the Policy and CFD Special Tax shall maintain the same relationship among land uses as the maximum annual special taxes originally documented in the CFD.

II. PROCESS

II.1 FORA shall review and update the CIP periodically to apply the formula described in this Resolution and proposed Implementation Agreement Amendment #1 and any resulting Policy and CFD Special Tax adjustments. That procedure must ensure that FORA's revenue sources, including the Policy and CFD Special Tax revenues, are adequate to carry out the Base Reuse Plan and complete required CEQA Mitigation Measures and Board-determined base-wide obligations in FORA's CIP identified in Section 1.1 above. The periodic process will include the following steps:

II.1.1 Determine total remaining CIP costs (including required contingencies) consistent with section 1.1 above.

II.1.2 Determine the source and amount of funds, including, without limitation: a) Fund balances; b) Grant money; c) CSU Mitigation fees; d) Loan proceeds; e) Land sales revenues/proceeds net of a required credit/offset equal to the amount of monies advanced to construct CIP improvements (this amount shall ultimately be reduced to zero once the full credit/offset has been recognized) in excess of remaining building removal program estimated costs, and lease revenues (not required for other obligations); and f) FORA property tax revenue as calculated below. FORA retains its discretion to add new projects or obligations to be paid from these sources of funds. The following assumptions and formula shall be used to calculate the FORA property tax revenues, if available:

Assumptions:

- a. Current FORA CIP build-out assumptions as shown to estimate CFD special tax revenue

b. Current market data assumptions to estimate assessed values for each land use type.

Formula:

- a. Calculate the net present value (NPV) of 90% of the FORA property tax revenue stream for all new assessed value after July 1, 2012.
- b. The term on the FORA property tax stream shall be from the date of the current CIP (e.g., upcoming fiscal year) through the anticipated end date of FORA (or the proposed FORA extension end date if applicable).
- c. The NPV calculation shall assume a discount rate equal to the annual average Bond Buyer Revenue Bond Index plus 50 basis points using the prior fiscal year end date (e.g., use 2012 year to date annual average at the end of FY 2011-12 for the FY 2012-13 calculation) as published in The Bond Buyer.
- d. Allocate the NPV as calculated above to reduce/offset costs of CIP.
- e. Allocate 10% of the actual property tax revenues collected by FORA from all new assessed value after July 1, 2012 and generated from parcels in the Fort Ord area of the member jurisdiction to the City or County for economic development to support the reuse of Fort Ord land within the relevant City or County.

II.1.3 Subtract sources of funds available under Section 2.1.2 from CIP costs to determine net cost to be funded by the Policy and CFD Special Tax.

II.1.4 Calculate Policy and CFD Special Tax revenues using the prior year Policy and CFD Special Tax Rates and the same land use assumptions used to estimate FORA property tax revenues shown above in Section 2.1.2.

II.1.5 Compare 2.1.4 with 2.1.3 and determine the amount of adjustment, if any, to the Policy and CFD Special Tax rates. In no event shall the adjusted CFD Special Tax rates exceed the Maximum CFD Special Tax rates (as escalated annually per the special tax formula).
