**INDEPENDENT AUDITOR'S REPORT**

Board of Directors  
Fort Ord Reuse Authority  
Marina, California

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and each major fund of the Fort Ord Reuse Authority (Authority), California, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Fort Ord Reuse Authority, California, as of June 30, 2018, and the respective changes in financial position, for the fiscal year then ended, in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter**

### *Change in Accounting Principle*

As discussed in Note 1 of the notes to the basic financial statements, effective July 1, 2017, the Authority adopted the Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*. Our opinion is not modified with respect to this matter.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 9, the Budgetary Comparison Schedule on page 36, the Schedule of Plan's Proportionate Share of Net Pension Liability and Related Ratios as of Measurement Date – Authority Miscellaneous Plan on page 37, the Schedule of Pension Contributions – Authority Miscellaneous Plan on page 38, the Schedule of Change in Net OPEB Liability and Related Ratios on page 39, and the Schedule of OPEB Contributions on page 40, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2018 on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2018

This Fort Ord Reuse Authority (Authority) financial performance analysis provides an overview of Authority financial activities for fiscal year ending June 30, 2018. Please read it in conjunction with the basic financial statements and related notes that follow this section.

## FINANCIAL HIGHLIGHTS

---

During FY 17/18 Fort Ord Reuse Authority (“Authority or “FORA”) financial landscape remained strong and significant economic factors continued to support the recovery program. As worldwide and national recovery from the 2006-2012 great recession continued, regional response on a positive upswing with respect to former Fort Ord residential and commercial recovery – fueling the FORA program financial demands in several important ways. Consequently, the Authority Community Facilities District Special Tax/Developer Fees (CFD fees) and land sale revenues (that had been slow/deferred/reduced during the Great Recession) are sustained in moderate amounts. Since 2012, new significant projects have begun or completed construction, including: VA General Gourley Health Care Center, California Central Coast Veterans Cemetery, South County Housing University Villages Apartments, Manzanita Place Housing, the Cinemax Theatre Complex, Promontory Student Housing, Marriott/Springhill Suites Hotel, Dunes Fast Casual Restaurants (and recent expansion), and East Garrison, Marina Heights/Sea Haven, and the Dunes on Monterey Bay Housing. Other revenue sources continue to rise, as valuation increases again elevated FORA tax share amounts this past year.

### During FY 17-18, the Authority:

- ❖ Continued toward regulatory close out of essential and significant munitions and explosives of concern (MEC) cleanup processing for approximately 3,450 former Fort Ord acres. The U.S. Army ESCA contract field work has been completed and over 25% of these properties have now been transferred. In FY 17/18 FORA staff negotiated a reimbursement amendment of the ESCA contract that provides up to \$6.8M for future land use covenant monitoring and long term stewardship for the properties remediated under the ECA and will be transferred to the County of Monterey, Monterey Peninsula College, California State University, City of Seaside, and State of California for reuse activities and habitat conservation.
- ❖ Increased reserve amounts and designating funds for California Public Employees Retirement System (CalPERS) pension, establishing a Section 115 Trust to both set aside funds for this purpose and improving investment return.
- ❖ Executed contracts to complete the Authority’s remaining \$7-\$10 million former Fort Ord building removal program responsibilities at Surplus II and Stockade areas.
- ❖ Completed the second administrative draft Environmental Impact Report/ Environmental Impact Statement for the Habitat Conservation Plan (HCP). The draft HCP will be released for public review in FY 2018/2019.

- ❖ Collected \$10.9 million in revenues, including \$6.6 million in CFD fees, \$2.3 Million in property tax payments and \$819K in grants. Additional land sales, CFD fee, tax and grant revenues are expected in FY 18-19.

## OVERVIEW OF THE FINANCIAL STATEMENTS

---

This discussion and analysis introduces the Authority's basic financial statements, which are comprised of three components: 1) Government-Wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Basic Financial Statements.

This report also contains required and other supplementary information in addition to the basic financial statements for further information and analysis.

### **Government-Wide Financial Statements**

The *Government-Wide Financial Statements* present the Authority financial picture and provide readers with a broad view of the Authority's finances. These statements present governmental activities and include all assets of the Authority as well as all liabilities (including long-term debt).

The *Statement of Net Position and the Statement of Activities and Changes in Net Position* report information about the Authority as a whole and about its activities. These statements include all assets and liabilities of the Authority using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenue and expenses are taken into account, regardless of when cash is received or paid.

The *Statement of Net Position* presents information on all of the Authority's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in the Authority's net position are one indicator of whether its financial health is improving or deteriorating.

The *Statement of Activities and Changes in Net Position* presents information showing how the Authority's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, all the current year's revenue and expenses are reported in the statement of activities regardless of when cash is received or paid. The focus of the government-wide statement of activities is on the net cost of governmental activities and business-type activities provided by a governmental entity.

The Authority was engaged in the following types of activities:

*Governmental Activities:* During the FY 17-18, the Authority employed federal grants, property tax receipts, lease proceeds, development fees, franchise fees and membership dues to finance:

- MEC remediation processing, documentation, documents production and reports;
- Capital Improvement Program ("CIP") planning/implementation;
- General governmental operations, administration, risk assessment, and planning;
- Base Reuse Plan implementation, consistency determinations, and review;
- Legal expenses for new and ongoing litigation and multiple contracts;
- Property surveys and transfers;

- Prevailing Wage support/monitoring;
- Habitat conservation planning;
- June 30, 2020 Sunset Transition Planning; and
- Business Recruitment and Regional Economic Development

The Government-Wide Financial Statements can be found on pages 10-11 of this report.

### **Fund Financial Statements**

The Fund Financial Statements provide detailed information about the Authority's most significant funds – not the Authority as a whole. The statements provide a *near-term* look at the Authority's fiscal accountability and compliance with restrictions on the use of certain financial resources.

The governmental funds are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

Governmental Funds: The Governmental Funds are used to account for essentially the same functions reported as governmental activities in the Government-Wide Financial Statements. However, unlike the Government-Wide Financial Statements, Governmental Funds Financial Statements focus on current financial resources, which emphasize near-term inflows and outflows of expendable resources as well as balances of expendable resources at the end of the fiscal year. The Authority's services and activities are reported in governmental funds and comprise the General Fund and four Special Revenue Funds.

*The General Fund:* The general operating fund accounts for all of the Authority's financial resources except for those resources that are required to be accounted for in Special Revenue Funds, which are restricted as to expenditures.

*Special Revenue Funds:* The Authority maintained four Special Revenue Funds: 1) Lease/Land Sale Proceeds Fund - land sale proceeds are designated to finance the Authority's CIP (building removal), lease proceeds are designated to debt financing (Preston Park Loan); 2) Developer Fees Fund – CFD fees are designated to finance the Authority's CIP (CEQA mitigations); 3) Pollution Legal Liability (PLL) Fund – revenue is designated to finance the PLL coverage; and 4) Army Grant ET/ESCA – grant funds are designated to finance the munitions and explosives cleanup activities.

The fund financial statements can be found on pages 12-15 of this report.

Notes to the Basic Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and Fund Financial Statements.

Required Supplementary Information: In addition to the basic financial statements, this report also presents certain Required Supplementary Information including the Authority's budgetary comparison schedule for the General Fund and Special Revenue Fund consolidated, the Schedule of Funding Progress for Post-Employment Benefits Other than Pensions, and information concerning the progress in funding obligation to provide pension benefits to its employees.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

---

The government-wide financial statements provide long-term and short-term information about the Authority's overall financial condition.

Net position in the Statement of Activities on page 11 of this report show the Authority's governmental activities improved over the last 12 months from \$44.6 million to positive \$50.1 million, primarily increased developer and franchise fee revenues offset by lower expenditures. Net position is a good indicator of the Authority's financial position. A positive balance in net position means that all assets the Authority had at the fiscal year end (including long-term receivables and non-liquid assets) exceed all liabilities (including long-term debt not due at the end of the fiscal year). In addition, the unspent balance in the ESCA grant fund at June 30, 2018 of \$531 thousand is classified as revenue collected in advance of the earnings process and recorded as unearned revenue, a liability account, for financial statement purposes. It will be recognized as revenue when it is earned.

Revenue: The Authority's annual revenue decreased from \$38.3 million to \$10.9 million primarily due to the prior year gain on sale of Preston Park and increase in CFD fees offset by decrease of lease rental revenue and federal funds (ESCA) (as compared to the previous fiscal year). Other revenue sources did not vary significantly.

Revenue sources in FY 17-18 were provided from the following:

- CFD fees – 60.2%
- Property tax – 21.5%
- Federal funding (ESCA) – 7.5%
- Other revenue sources (lease proceeds, franchise fees, membership dues, interest, PLL) – 10.8%

Expenditures: The FY 17-18 cost of the Authority's programs was \$6.2 million. The major governmental programs were the Environmental cleanup, Capital Improvement Program and the Fort Ord Base Reuse Plan reassessment/implementation.

The government-wide financial statement showing the net cost of the Authority's major projects can be found on page 11 of this report.

## FUND FINANCIAL STATEMENT ANALYSIS

---

A fund is a group of related accounts used to maintain resource control and is segregated for specific activities or objectives. Reporting standards require that a major governmental fund be presented in a separate column in the fund financial statements. In accordance with GASB Stmt. No. 34, paragraph 76, the Authority has elected to report all its special revenue funds as major funds as these funds are important to financial statement users. The General Fund is always considered a major fund and therefore presented in a separate column. The fund financial statements focus on the Authority's individual parts.

The focus of the Authority's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the

Authority's financial requirements. In particular, unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As the Authority completed the fiscal year, its governmental funds reported a combined fund balance of \$49.2 million. This an increase of about \$2.9 million from FY 16-17 and all is assigned or committed for specific use such as federal grant funds assigned for munitions cleanup, CFD fees and land sale proceeds assigned for CIP projects, building removal and the Habitat Conservation Plan, CalPERS pension liabilities, the Authority's 2020 Sunset operating obligations and non-spendable funds such pre-paid insurance.

**Ending Fund Balances**

Fiscal Year	General Fund	Land Sale/Leases	Developer Fees	Pollution Liability	Army Grants	TOTALS
2016-2017	\$ 12,717,894	\$ 11,797,910	\$ 21,601,292	\$ 226,676	\$ -	\$46,343,772
2017-2018	\$ 9,931,682	\$ 11,342,971	\$ 26,554,072	\$ 1,374,757	\$ -	\$49,203,482
Change + (-)	\$ (2,786,212)	\$ (454,939)	\$ 4,952,780	\$ 1,148,081	\$ -	\$ 2,859,710

**BUDGETARY HIGHLIGHTS**

---

A budget is a financial operations plan that provides a basis for planning, controlling, and evaluating governmental activities. Governmental funds generally use a fixed budget, which reflects a specific estimate for revenue and expenditures. Once expenditures and revenue are incorporated into the budget, the total estimated expenditure appropriation amount becomes a limit for current expenditures, and the estimated revenue amount becomes the basis for comparison to actual revenue. Even though the Authority is not legally subject to budgetary controls, the budget is included as a part of the general accounting record, and it is used as a guide to control expenses.

The Authority's Board approved the FY 17-18 budget on May 12, 2017 and the mid-year budget update on April 13, 2018. As development activities on the former Fort Ord have steadily increased, the Authority's Board policies have gained financial stability.

**Budget Variances (mid-year budget projections to year-end actual)**

FY 17-18	Budget	Actuals	Variance	Notes
Revenues	\$ 10,319,178	\$ 10,881,800	\$ 562,622	CFD Fees
Expenditures	\$ 18,926,846	\$ 8,022,090	\$ 10,904,756	Building Removal, CIP
Surplus (Deficit)	\$ (8,607,668)	\$ 2,859,710	\$ 11,467,378	

**Revenue: Net \$0.6 million increase**

Revenue projections varied from the mid-year budget to increased CFD fees resulting from increased housing builds.

**Expenditures: \$10.9 million decrease**

Due to project timing in Contractual and Capital categories, building removal activities deferred to FY 17-18. Other expenditure categories were in line with the approved budget.

The budgetary comparison information schedule can be found on page 36 of this report.

## LONG-TERM DEBT

---

As of June 30, 2018, the Authority had approximately \$1.5 million in long-term debt consisting of compensated absences and retirement funding obligations. This amount represents the Authority's liability for compensated absences (vacation and sick leave \$0.3 million), the Public Employees Retirement System (PERS) side fund and pension liability (\$1.0 million), and post-employment benefit cost (\$0.2 million).

More detailed information about the Authority's total long-term debts is presented on pages 26-32, Notes 5-11 to the financial statements.

## INTERFUND TRANSFERS

---

By June 30, 2018, the following interfund (between the Authority's funds) transfers were made to provide an accurate accounting of funds available for CIP program and uniformity with the annual and CIP budgets as well as other binding documents. Such entries are now a part of and reported in annual budgets.

- 1) \$1.3M transfer from the General Fund to the Pollution Legal Liability Fund for unamortized portion of the insurance policy.
- 2) \$1.3M transfer from the General Fund to the CFD/Developer Fee Fund to fund capital projects and as budgeted in the CIP program.

More detailed information about the Authority's interfund transfers is presented on page 26, Note 3 to the financial statements.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

---

In FY 17-18, major economic revitalization projects (itemized on page 1) were in operation, construction, or were completed. These major/significant projects are supported by the Authority's CIP program such as the habitat conservation, roadway design and planning, building removal. With the conclusion of U.S. Army ESCA contract field work comes long term stewardship obligations and additional contract amendment to address further short and long term needs. This past year, the Board also moved ahead with CIP project planning and design.

In coming years, the Authority will need to continue promoting and confirming land sales/leasing revenue to support operations and assure collection of developer fees/taxes to complete its State Law mandated obligations. The Authority must continue to monitor CalPERS pension/health care obligations and operational funding through 2020, and complete a Transition Plan in 2018 regarding the Authority's sunset.

As underlying economic factors continue strong the Authority should secure revenue sources in a reserve that assures its post sunset obligations (programmatic, contractual and ministerial) may be met by a successor(s). Assuming the economic rebound continues, the Authority should remain financial solvent to fund its obligations through its sunset. Given the pending transition, new obligations must be limited to ensure restricting post 2020 funding obligations.

CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT

---

This financial report is designed to provide our citizenry, taxpayers, customers, investors and creditors with an overview of the Authority's finances, and to demonstrate the Authority's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Fort Ord Reuse Authority, Executive Officer, 920 2<sup>nd</sup> Avenue, Suite A, Marina, California, 93933.

**FORT ORD REUSE AUTHORITY**

**Reconciliation of the Balance Sheet of Governmental Funds  
to the Statement of Net Position  
June 30, 2018**

Total fund balances - governmental funds \$ 49,203,482

In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets and accumulated depreciation.

Capital assets at historical cost	\$ 153,625	
Accumulated depreciation	<u>(139,414)</u>	
Net		14,211

The focus of governmental funds is on short-term financing, therefore, some assets will not be available to pay for current-period expenditures. Those assets are offset by deferred inflows in the governmental funds and not included in fund balance. Deferred revenue associated with these assets is not included in the statement of net position. 767,777

Deferred outflows and inflows of resources relating to pensions: In governmental funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported.

Deferred inflows of resources relating to pensions	\$ (614,371)	
Deferred outflows of resources relating to pensions	<u>2,202,271</u>	
Net		1,587,900

Long-term liabilities: In governmental funds, only current liabilities are reported. In the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities relating to governmental activities consist of:

Net pension liability	\$ (1,052,889)	
OPEB	(192,265)	
Compensated absences	<u>(264,325)</u>	
Total		<u>(1,509,479)</u>

Total net position, governmental activities \$ 50,063,891

**FORT ORD REUSE AUTHORITY**

**Reconciliation of the Statement of Revenues, Expenditures, and Change in Fund Balances  
of Governmental Funds to the Statement of Activities  
For the Fiscal Year Ended June 30, 2018**

---

Total net change in fund balances - governmental funds	\$	2,859,710
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which additions to capital outlay of \$10,480 is more than depreciation expense \$(8,217) in the period.		2,263
Gain or loss from disposed capital assets: In governmental funds, the entire proceeds from disposal of capital assets are reported as revenue. In the statement of activities, only the resulting gain or loss is reported. The difference between the proceeds from disposal of capital assets and the resulting gain or loss is:		(315)
In the statement of activities, postemployment benefits are measured by the amounts earned during the fiscal year. In governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts paid). This fiscal year, amounts earned were greater than amounts paid by:		54,487
The focus of governmental funds is on short-term financing, therefore, some assets are offset by unearned revenue or deferred inflows. Loans and notes issued during the year are reported as expenditures in the governmental funds when paid. Collections of loans and notes are reported as revenues in the governmental funds when received. The annual activity for loans and notes is not reported as revenues and expenses in the statement of activities. Net activity includes establishment of an allowance.		33,716
In governmental funds, pension costs are recognized when employer contributions are made. In the statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and actual employer contributions was:		1,796,078
In governmental funds, compensated absences are measured by the amounts paid during the period. In the Statement of Activities, compensated absences are measured by the amounts earned. The difference between compensated absences paid and compensated absences earned was:		(46,998)
Change in net position of governmental activities	\$	<u>4,698,941</u>

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

The notes to the statements include a summary of significant accounting policies and other notes considered essential to fully disclose and fairly present the transactions and financial position of the Fort Ord Reuse Authority, as follows:

- Note 1 - Summary of Significant Accounting Policies
- Note 2 - Cash and Investments
- Note 3 - Interfund Activity
- Note 4 - Capital Assets
- Note 5 - Pension Plan
- Note 6 - Deferred Compensation Plan
- Note 7 - Long-Term Debt Obligations
- Note 8 - Compensated Absences
- Note 9 - Post Employment Benefits Other than Pensions
- Note 10 - Health Care Plan
- Note 11 - Commitments and Contingencies
- Note 12 - Property Sales and Lease Income
- Note 13 - Contingent Receivables
- Note 14 - US Army Environmental Services Cooperative Agreement Grant
- Note 15 - Office Lease
- Note 16 – Restatement

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

**Note 1 - Summary of Significant Accounting Policies**

A. Reporting Entity

The Fort Ord Reuse Authority (Authority) was created under Title 7.85 of the California Government Code, Chapters 1-7, signed into law on May 10, 1994. The Authority was incorporated in the State of California as an instrumentality and is considered a quasi-governmental regional agency. The Authority has specific powers in State Law to prepare, adopt, finance and implement a plan for the future use and development of the territory formerly operated by the U.S. Army as the Fort Ord Military Reservation in Monterey County, California.

The Authority is governed by a 13-voting member board, which consists of various Monterey County's Board of Supervisors, City Mayors and/or Council Members from surrounding jurisdictions. The Authority Board has 12 non-voting ex-officio members. There are no component units, as defined in the Governmental Accounting Standards Board Statement (GASB) No. 14, No. 39, No. 61, and No. 80 that are included in the Authority's reporting entity.

The Authority receives funding from local, state and federal governmental sources and must comply with the accompanying requirements of these funding source entities. However, the Board is not included in any other governmental reporting entity as defined by the Governmental Accounting Standards Board pronouncement. The Board has the authority to levy taxes, the power to designate management and the ability to significantly influence operations and primary accountability for fiscal matters.

Title 7.85 of California Government Code specifies that its terms and provisions would become inoperative when the board determines that 80% of the territory of Fort Ord (that is designated for development or reuse in the plan prepared pursuant to the bill) has been developed or reused in a manner consistent with the plan, or June 30, 2014, whichever occurs first, and would be repealed on January 1, 2015.

In 2012, Assembly Bill (AB) 1614 was proposed to extend the Authority's statutory June 30, 2014 sunset date in order to permit the completion of remaining ongoing and fixed term obligations. The legislature and the Monterey Bay Region demonstrated broad support for AB 1614 and it was signed into law by Governor Brown in September 2012, effectively extending the Authority's sunset date to June 30, 2020. AB 1614 requires a report to the legislature in 2018 outlining the major sunset issues and their completion or post-sunset assignment.

B. Accounting Policies

The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental agencies. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the Authority are described below.

C. Basis of Presentation

The financial statement presentation, required by GASB Statement Nos. 34, 37, and 38, provides a comprehensive, entity-wide perspective of the Authority's assets and liabilities and expands the fund-group perspective previously required.

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Authority.

The government-wide statements are prepared using the economic resources measurement focus. Government-wide statements differ from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for the governmental funds.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Authority's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The Authority does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the Authority, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Authority.

Fund Financial Statements

Fund financial statements report detailed information about the Authority. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major governmental fund is presented in a separate column.

The accounting and financial treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

D. Fund Accounting

Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. The accounts of the Authority are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity or net position, revenues, and expenditures or expenses, as appropriate. Authority resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The Authority's accounts are organized into major funds as follows:

Major Governmental Funds

**General fund** is the general operating fund of the Authority and accounts for all revenue and expenditures of the Authority not encompassed within other funds. All general revenue and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund.

In accordance with GASB Statement No. 34, paragraph 76, the Authority has elected to report its special revenue funds as major funds since these funds are believed to be important to financial statement users, as follows:

**Special Revenue Funds** are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund. The Authority maintains four major special revenue funds:

1. Lease and Sale Proceeds Fund is used to account for revenue from the sale/lease of real estate on the former Fort Ord.
2. Developer Fees Fund is used to account for moneys received from fees levied on developers or other agencies as a condition of approving development on the former Fort Ord.
3. Pollution Legal Liability Fund is used to account for resources and payments made for principal and interest on long-term debt associated with the purchase of the 2005 and 2015 Pollution Legal liability insurance.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

4. Army Grant ET/ESCA Fund is used to account for revenue and projects funded by the U.S. Department of the Army for cleanup of munitions and explosives of concern.

E. Budgetary Data

The Authority is not required by state law to adopt annual budgets for the general and special revenue funds. An annual budget is, however, prepared, adopted by the Authority's Board, and included as a part of the general accounting record and to control expenses. Each budget is prepared and monitored by the budget controller at the revenue and expenditure function/object level.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- A proposed draft budget is submitted to the Board for the fiscal year commencing July 1.
- Once the budget is approved, it can only be amended by Board approval.
- Budget amendments are presented for Board consideration at their regular meetings.

F. Use of Estimates

Financial statement preparation in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures during the reporting period. Actual results could differ from those estimates.

G. Cash and Investments

Cash and cash equivalents held by the Authority are reported as cash and investments. Funds can be expended at any time without prior notice or penalty. Investments are stated at fair value. Fair Value is the value at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Restrict Cash and Investments

The Authority has established the PARS Post-Employment Benefits Trust as a tax-exempt trust within the meaning of Section 115 of the IRS Code to accumulate resources to "stabilize" the amount of its General fund resources that it will need to meet future contributions requirements to CalPERS. The balances and activities of the Trust are irrevocably dedicated to funding future obligations to CalPERS. The assets will benefit the Authority through reduced future cash flow demands on the District's General fund resources and continue to be assets of the District. These amounts are reflected as restricted cash and investments in the General fund.

H. Receivables

All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

I. Prepaid Items

The Authority has the option of reporting expenditures in governmental funds for prepaid items either when purchased or during the benefiting period. The Authority has chosen to report the expenditures during the period benefited.

J. Interfund Transactions

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as interfund receivables/interfund payables (i.e., the current portion of interfund loans) or advances to/from other funds (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as interfund receivables or interfund payables.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

K. Capital Assets

Equipment and furniture are stated on the actual cost basis. Capitalization level for capital assets is \$500 per unit (including installation cost). Contributed capital assets are recorded at their estimated fair market value at the time received. There were no contributed capital assets during the fiscal year. Capital assets are depreciated over their estimated useful lives. In accordance with the option provided by Government Accounting Principles Generally Accepted in the United States of America, infrastructure assets such as roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting are not recorded on the Statement of Net Position. Management has determined that the purpose of stewardship for capital expenses is satisfied without recording these assets. In addition, depreciation is not recorded on these capital assets. Depreciation is calculated using the straight-line method (with half-year conversion applied to the first year of acquisition) over the following estimated useful lives:

Leasehold improvements	5-20 years
Furniture and fixtures	2-7 years
Automobiles	5 years

In all cases, the infrastructure assets are owned by the Authority, as trustee, for a relatively short period of time.

During the reporting period, the Authority did not receive or transfer any real property during the fiscal year. Real property assets have been transferred from the United States Government under an Economic Development Conveyance (EDC) agreement dated June 23, 2000. These transfers included land, buildings, and infrastructure within the Cities of Marina, Del Rey Oaks, Monterey, Seaside and the County of Monterey. As of June 30, 2018, the Authority owned approximately 2,675 acres of historical Fort Ord land which included the following parcels:

- EDC properties transferred in connection with the Environmental Services Cooperative Agreement (ESCA) Grant.

Real property assets are not recorded on the Authority's books since the Authority, as trustee, is a short-term real property holding entity. The Authority transfers property to underlying jurisdictions for disposal/development, retaining 50% interest in any future sale or leasing proceeds from any of these properties transferred for private development or for public non-institutional purposes. The ESCA Grant properties are undergoing munitions and explosives of concern remediation with accompanying covenants restricting use of these properties ("CRUPS") and have limited value until the CRUPS are adjusted or lifted upon remediation completion regulatory concurrence.

Management has determined the estimated fiscal year-end value of all Authority owned properties to be in the range of \$50 - \$75 million, of which the Authority is entitled to a 50% share of leasing or land sales proceeds.

L. Unearned Revenue

Governmental funds report a liability of resources obtained prior to revenue recognition. This includes resources received in advance of an exchange transaction, resources received in advance in relation to a government-mandated nonexchange transaction or a voluntary nonexchange transaction when eligibility requirements other than time requirements have not been met, and resources received in advance in relation to derived tax revenue nonexchange transaction.

M. Net Position

GASB Statement No. 63 adds the concept of Net Position, which is measured on the full accrual basis, to the concept of Fund Balance, which is measured on the modified accrual basis.

Net Position is divided into three captions under GASB Statement No. 63. These captions apply only to Net Position as determined at the government-wide level, and are described below:

- Net investment in capital assets - This represents the Authority's total investment in capital assets.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

- Restricted net position - Restricted net position includes resources that the Authority is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties or regulatory agencies that direct usage, or other impositions by contract or adopted covenants.
- Unrestricted net position - Unrestricted net position represent resources derived from franchise fees and membership dues. These resources are used for transactions relating to the general operations of the Authority, and may be used at the discretion of the governing board to meet current expenses for any purpose.

**N. Long -Term Obligations**

In the government-wide financial statements, long-term obligations are reported as liabilities in the statement of net position. In the fund financial statements, long-term debt is not reported.

**O. Compensated Absences**

The leave policy was revised in June 2011 to limit vacation accrual and include a vacation cash out provision. Authority employees are allowed to accrue up to 10 days of sick leave and up to 20 days of vacation per year, depending on length of employment. Employees are permitted to accrue an unlimited amount of sick leave; vacation accrual is limited to 240 hours. Employees may elect to cash out up to 80 hours of accrued vacation one time during a fiscal year, which makes up the due within one year (\$132,162) of the Authority's liability for compensate absences. In the event of separation of employment, an employee is reimbursed for any unused vacation leave, and a portion of their unused sick leave can only cash out if have 5 years of services and the rest above the maximum 174 hours will be applied to CalPERS service credit. Reimbursement is based on the employee's regular salary rate at the date of termination or resignation. Vacation leave becomes vested immediately and sick leave becomes vested after 5 years of continuous service. Effective July 1, 2006, Authority management employees are provided 5 days of management leave per year. There is no cash pay-off for unused management leave time.

**P. Fund Balance**

As of June 30, 2018, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact (Prepaid Insurance).

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the Authority Board is the highest level of decision-making responsibility. Commitments may be established, modified, or rescinded only by the Authority Board taking the same formal action that imposed the constraint originally (ESCA grant and PLL insurance funds).

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the Authority's adopted policy, only the Authority Board or Executive Officer may assign amounts for specific purposes, 1) Community Facilities District (CFD)/Developer fees and land sale proceeds – assigned to the Authority Capital Improvement Program (CIP) program and Habitat Conservation Plan, 2) General Fund reserved \$6.7 million for PERS pension liabilities and \$3.2 million to be used for operating obligations through FORA 2020 sunset.

Unassigned – all other spendable amounts.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

When expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Authority considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the Authority considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Authority Board has provided otherwise in its commitment or assignment actions.

Q. Deferred Outflows/Inflows of Resources

Pursuant to GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position," and GASB Statement No. 65, "Items Previously Reported as Assets and Liabilities," the Authority recognizes deferred outflows and inflows of resources.

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period. The Authority has one item which qualifies for reporting in this category; refer to Note 5 for a detailed listing of the deferred outflows of resources the Authority has recognized.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. A deferred inflow of resources is defined as an acquisition of net position by the Authority that is applicable to a future reporting period. The Authority has one item which qualifies for reporting in this category; refer to Note 5 for a detailed list of the deferred inflows of revenues the Authority has recognized. On the fund financial statements, the Authority has deferred inflow of resources on the deferred revenue – local contributions and insurance reimbursements.

R. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Authority's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

S. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Authority's plan (OPEB Plan) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

T. New Accounting Pronouncements

For the fiscal year ended June 30, 2018, the Authority implemented Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions." This Statement is effective for periods beginning after June 15, 2017. The objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions. Implementation of the GASB Statements No. 75 and the impact on the Authority's financial statements are explained in Note 9- Postemployment Benefits Other than Pensions and Note 16 - Restatement.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

U. Future Accounting Pronouncements

GASB Statements listed below will be implemented in future financial statements:

Statement No. 83	"Certain Asset Retirement Obligations"	The provision of this statement is effective for fiscal years beginning after June 15, 2018.
Statement No. 84	"Fiduciary Activities"	The provision of this statement is effective for fiscal years beginning after December 15, 2018.
Statement No. 87	"Leases"	The provision of this statement is effective for fiscal years beginning after December 15, 2019.
Statement No. 88	"Certain Disclosure Related to Debt, including Direct Borrowings and Direct Placements"	The provision of this statement is effective for fiscal years beginning after June 15, 2018.
Statement No. 89	"Accounting for Interest Cost Incurred before the End of a Construction Period"	The provision of this statement is effective for fiscal years beginning after December 15, 2019.
Statement No. 90	"Majority Equity Interest-an Amendment of GASB Statements No. 14 and No. 61"	The provision of this statement is effective for fiscal years beginning after December 15, 2018.

**Note 2 - Cash and Investments**

Cash and investments as of June 30, 2018 are classified in the accompanying financial statements as follows:

Statement of Net Position	
Cash and investments	\$ 42,547,731
Cash and investments, restricted	5,705,042
Total cash and investments	<u>\$ 48,252,773</u>

Cash and investments as of June 30, 2018 consist of the following:

Cash on hand	\$ 200
Deposits with financial institutions	244,864
Investments	<u>48,007,709</u>
Total cash and investments	<u>\$ 48,252,773</u>

Investments Authorized by the California Government Code and the Authority's Investment Policy

The table below identifies the investment types that are authorized for the Authority by the California Government Code (or the Authority's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the Authority's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the Authority, rather than the general provisions of the California Government Code or the Authority's investment policy.

<u>Authorized Investments Type</u>	<u>Maximum Percentages</u>	<u>Maximum Maturity</u>
U.S. Treasury Obligations	per approval	24 months
Other Obligations guaranteed by the U.S. Government	per approval	12 months
Obligations of U.S. Federal Agencies	per approval	12 months
Certificates of Deposit	per approval	12 months
Deposit Notes	per approval	12 months
Repurchase Obligations	per approval	30 days
Bankers Acceptances	per approval	12 months
Savings and Money Market Accounts	per approval	12 months
Money Market Mutual Funds	per approval	12 months
Local Agency Investment Fund (LAIF)	per approval	12 months
Corporate Notes	per approval	24 months

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

The Executive Officer shall consult with the Finance Committee Chair for any investment transaction exceeding 5% of the Authority's total portfolio; the Finance Committee will be routinely informed of these transactions.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair values of the Authority's investments to market interest rate fluctuations is provided by the following table that shows the maturity date of each investment:

		<u>Maturity Date</u>
Money market mutual funds	\$ 34,688,336	Due on demand
Local agency investment fund	\$ 7,347,952	Due on demand
Certificates of deposit	\$ 266,379	12 months
Restricted cash and investments – section 115 trust		
U.S. Treasury	\$ 1,942,284	13-24 months
Corporate notes	\$ 3,756,356	13-24 months
Money market mutual funds	\$ 6,402	Due on demand

The Authority has no investments that are highly sensitive to interest rate fluctuations.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the Authority's investment policy, or debt agreements, and the actual rating as of fiscal year end for each investment type.

Investment Type	Amount	Minimum Legal Rating	Exempt From Disclosure	Rating as of Fiscal Year End					
				A+	A	A-	BBB+	BBB	BBB-
Money market mutual funds	\$ 34,688,336	NA	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Local agency investment fund	7,347,952	NA							
Certificates of deposit	266,379	NA							
Restricted - Section 115 Trust									
U.S. Treasury	1,942,284	NA	1,942,284						
Corporate Notes	3,756,356	BBB-		294,164	742,493	899,669	605,029	905,850	309,151
Money market mutual funds	6,402	NA							
	<u>\$ 48,007,709</u>		<u>\$ 1,942,284</u>	<u>\$ 294,164</u>	<u>\$ 742,493</u>	<u>\$ 899,669</u>	<u>\$ 605,029</u>	<u>\$ 905,850</u>	<u>\$ 309,151</u>

Concentration of Credit Risk

The investment policy of the Authority contains limitations on the amount that can be invested in any type of investment or industry group beyond that stipulated by the California Government Code. There are no investments in any one issuer (other than money market mutual funds and certificates of deposits) that represent 5% or more of total Authority investments.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the Authority's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits:

The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure Authority deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the Authority's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools.

As of June 30, 2018, \$517,544 of the Authority's deposits with financial institutions in excess of federal depository insurance limits were held in collateralized accounts.

Investment in State Investment Pool

The Authority is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the Authority's investment in this pool is reported in the accompanying financial statements at amounts based upon the Authority's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which is recorded on an amortized cost basis.

Fair Value Measurements:

The Authority pool investment categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices quoted in active markets;
- Level 2: Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active; and,
- Level 3: Investments reflect prices based upon unobservable sources.

The Authority pool investment has the following recurring fair value measurements as of June 30, 2018:

Investment by Fair Value Level	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Input (Level 2)	Significant Unobservable Inputs (Level 3)
Restricted - Section 115 Trust				
U.S. Treasury	\$ 1,942,284	\$ -	\$ 1,942,284	\$ -
Corporate Notes	3,756,356		3,756,356	
Total Investments Measured at Fair Value	5,698,640	\$ -	\$ 5,698,640	\$ -
Investments Measured at Amortized Cost				
LAIF	7,347,952			
Total Pooled Investments	\$ 13,046,592			

The Authority also had investments in the money market mutual funds, however, these investments are not required to be measured under Level 1, 2 or 3.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

**Note 3 – Interfund Activity**

Interfund Transfers

Interfund transfers consist of transfers from funds receiving revenue to funds through which the resources are to be expended. Interfund transfers for the 2017-2018 fiscal year are as follows:

	Transfers In	Transfers Out
Major Governmental Funds:		
General Fund	\$ -	\$ 2,654,218
Developer Fees Special Revenue Fund	1,335,617	
Pollution Legal Liability Special Revenue Fund	1,318,601	
	\$ 2,654,218	\$ 2,654,218

**Note 4 - Capital Assets**

Capital asset activity for the fiscal year ended June 30, 2018, was as follows:

Governmental Activities

	Balance at July 1, 2017	Additions	Deletions	Balance at June 30, 2018
Capital assets, being depreciated:				
Equipment and furniture	\$ 150,676	\$ 10,480	\$ (7,531)	\$ 153,625
Less - accumulated depreciation	(138,413)	(8,217)	7,216	(139,414)
Total capital assets, net	\$ 12,263	\$ 2,263	\$ (315)	\$ 14,211

Depreciation expense was \$8,217 for the fiscal year ended June 30, 2018 and charged to the general government function.

**Note 5 - Pension Plan**

**California Public Employees' Retirement System (CalPERS)**

**A. General Information About the Pension Plan**

Plan Descriptions – All qualified permanent and probationary employees are eligible to participate in the Local Government's separate Safety (police and fire) and Miscellaneous (all other) Employee Pension Plans, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and Local Government resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

The Plan's provisions and benefits in effect at June 30, 2018, are summarized as follows:

Hire Date	Prior to January 1, 2013	On or after January 1, 2013
Benefit formula	2.0% at 55	2.0% at 62
Benefit vesting schedule	5 Years	5 Years
Benefit payments	Monthly for Life	Monthly for Life
Retirement age	50-63	52-67
Monthly benefits, as a % of eligible compensation	1.10% to 2.50%	1.00% to 2.50%
Required employee contribution rates	7.000%	6.250%
Required employer contribution rates	8.921%	6.533%

Specific details for retirement, disability or death benefit calculations for each of the pension plans are available in the CalPERS' Comprehensive Annual Financial Report (CAFR). The CalPERS' CAFR is available online at <https://www.calpers.ca.gov/page/forms-publications>.

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the fiscal year ended June 30, 2018, the contributions recognized as part of pension expense were as follows:

Contribution – employer                      \$646,827

**B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions**

As of June 30, 2018, the Authority reported net pension liability for its proportionate share of the net pension liability in the amount of \$1,052,889.

The Authority's net pension liability is measured as the proportionate share of the net pension liability. The net pension liability is measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017 using standard update procedures. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

For the fiscal year ended June 30, 2018, the Authority recognized pension expense of \$273,098. At June 30, 2017, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 2,933	\$ 42,028
Changes of assumptions	363,976	27,753
Changes in proportions		542,194
Net difference between projected and actual earnings on pension plan investments	82,316	
Differences between Authority contributions and proportionate share of contributions	450,470	2,396
Authority contributions subsequent to the measurement date	<u>1,302,576</u>	
Total	<u>\$ 2,202,271</u>	<u>\$ 614,371</u>

\$1,302,576 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

<u>Fiscal Year Ended June 30</u>	<u>Amount</u>
2019	\$ 39,357
2020	178,393
2021	116,447
2022	(48,873)

**Actuarial Assumptions** – The total pension liabilities in the June 30, 2016 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2016
Measurement Date	June 30, 2017
Actuarial Cost Method	Entry age normal in Accordance with the Requirements of GASB 68
Discount Rate	7.15%
Consumer Price Inflation	2.75%
Wage Growth	Varies by Entry Age and Service
Mortality Rate Table <sup>1</sup>	Derived using CalPERS' Membership Data for all Funds
Post-retirement Benefit Increases	Contract COLA up to 2.75% until PPPA Floor on purchasing power applies, 2.75% thereafter

(1) The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2014 experience study report.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

All other actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be found on CalPERS' website under Forms and Publications.

Discount Rate – The discount rate used to measure the total pension liability was 7.15%. To determine whether the municipal bond rate should be used in the calculation of the discount rate for public agency plans (including PERF C), CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing of the plans, the tests revealed the assets would not run out. Therefore, the current 7.65 percent discount rate is appropriate and the use of the municipal bond rate calculation is not deemed necessary. The long-term expected discount rate of 7.15 percent is applied to all plans in the Public Employees Retirement Fund, including PERF C. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained on CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimated ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table in the next page reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates are net of administrative expenses.

<u>Asset Class</u>	<u>New Strategic Allocation</u>	<u>Expected Real Rate of Return Years 1 - 10 (a)</u>	<u>Expected Real Rate of Return Years 11+(b)</u>
Global Equity	47.0%	4.90%	5.38%
Global Debt Security	19.0%	0.80%	2.27%
Inflation Assets	6.0%	0.60%	1.39%
Private Equity	12.0%	6.60%	6.63%
Real Estate	11.0%	2.80%	5.21%
Infrastructure and Forestland	3.0%	3.90%	5.36%
Liquidity	2.0%	-0.40%	-0.90%
Total	<u>100%</u>		

(a) An expected inflation of 2.5% was used for this period

(b) An expected inflation of 3.0% was used for this period

**Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** – The following presents the Authority's proportionate share of the net pension liability, calculated using the discount rate, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	Discount Rate -1% 6.15%	Current Discount Rate 7.15%	Discount Rate +1% 8.15%
Employer's Net Pension Liability - Miscellaneous	\$ 2,252,658	\$ 1,052,889	\$ 59,220

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

**Pension Plan Fiduciary Net Position** —Detailed information about pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

**C. Payable to the Pension Plan**

At June 30, 2018, the Authority had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2018.

**Hypothetical Termination Liability**

The hypothetical termination liability is an estimate of the financial position of the plan had the contract with CalPERS been terminated as of June 30, 2016. The plan liability on a termination basis is calculated differently compared to the plan's ongoing funding liability. For the hypothetical termination liability calculation, both compensation and service are frozen as of the valuation date and no future pay increases or service accruals are assumed. This measure of funded status is not appropriate for assessing the need for future employer contributions in the case of an ongoing plan, that is, for an employer that continues to provide CalPERS retirement benefits to active employees.

A more conservative investment policy and asset allocation strategy was adopted by the CalPERS Board for the Terminated Agency Pool. The Terminated Agency Pool has limited funding sources since no future employer contributions will be made. Therefore, expected benefit payments are secured by risk-free assets and benefit security for members is increased while funding risk is limited. However, this asset allocation has a lower expected rate of return than the PERF and consequently, a lower discount rate is assumed. The lower discount rate for the Terminated Agency Pool results in higher liabilities for terminated plans.

The effective termination discount rate will depend on actual market rates of return for risk-free securities on the date of termination. As market discount rates are variable, the table below shows a range for the hypothetical termination liability based on the lowest and highest interest rates observed during an approximate 2-year period centered around the valuation date.

**MISCELLANEOUS PLAN**

Market Value of Assets (MVA)	Hypothetical Termination Liability <sup>1,2</sup> @ 1.75%	Funded Status	Unfunded Termination Liability @ 1.75%	Hypothetical Termination Liability <sup>1,2</sup> @ 3.00%	Funded Status	Unfunded Termination Liability @ 3.00%
\$ 6,393,020	\$ 15,233,823	42.00%	\$ 8,840,803	\$ 13,270,111	48.20%	\$ 6,877,091

**PEPRA MISCELLANEOUS PLAN**

Market Value of Assets (MVA)	Hypothetical Termination Liability <sup>1,2</sup> @	Funded Status	Unfunded Termination Liability @	Hypothetical Termination Liability <sup>1,2</sup> @	Funded Status	Unfunded Termination Liability @
\$ 77,992	\$ 209,856	37.20%	\$ 131,864	\$ 160,352	48.60%	\$ 82,360

<sup>1</sup> The hypothetical liabilities calculated above include a 7 percent mortality contingency load in accordance with CalPERS's Board policy.

<sup>2</sup> The current discount rate assumption used for termination valuations is a weighted average of the 10-year and 30-year U.S. Treasury yields where the weights are based on matching asset and liability durations as of the termination date. The discount rates used in the table are based on 20-year Treasury bonds, rounded to the nearest quarter percentage point, which is a good proxy for most plans. The 20-year Treasury yield was 1.75 percent on June 30, 2016, and was 2.75 percent on January 31, 2017.

In order to terminate the plan, the Authority must first contact the Retirement Services Contract Unit to initiate a Resolution of Intent to terminate. The completed Resolution will allow the plan actuary to give the Authority a preliminary termination valuation with a more up-to-date estimate of the plan liabilities. CalPERS advises the Authority to consult with the plan actuary before beginning this process.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

**Note 6 - Deferred Compensation Plan**

The Authority offers its full-time employees a deferred compensation plan in accordance with Internal Revenue Code §457. The plan permits the employee to defer until future years up to 25% of annual gross earnings not to exceed \$18,000; this amount increases to \$24,000 for employees 50 years and older. Assets are not available to participants for disbursement until termination, retirement, death, or an emergency.

The Authority does not fund the compensation deferred under the Plan except for \$1,533 per month contributed on behalf of the Executive Officer per the employment agreement. The contributions are held in investments that are underwritten by ICMA Retirement Corporation. Periodic contributions are made through payroll deductions of the employees and all plan fees associated with the accounts are the responsibility of the individual employee.

The participants' accounts are not subject to claims of the Authority's creditors. The Authority has no liability for losses under the plan but does have the duty of due care that would be required of any ordinary prudent investor.

**Note 7 - Long-Term Debt Obligations**

Long-term debt activity for the fiscal year was comprised of the following:

	Beginning Balance	Restatement	Additions	Deletions	Ending Balance	Due Within One Year
Net pension liability	\$ 1,370,283	\$ -	\$ 309,433	\$ 626,827	\$ 1,052,889	\$ -
OPEB	968,384	(721,632)	26,277	80,764	192,265	
Compensated absences	217,327		212,214	165,216	264,325	132,162
Totals	<u>\$ 2,555,994</u>	<u>\$ (721,632)</u>	<u>\$ 547,924</u>	<u>\$ 872,807</u>	<u>\$ 1,509,479</u>	<u>\$ 132,162</u>

**Note 8 - Compensated Absences**

The Authority's liability for accrued vacation and sick pay at June 30, 2018 was \$264,325. Of this amount, the Authority's management estimates \$132,162 will be due in next fiscal year.

**Note 9 - Post Employment Benefits Other than Pensions**

The Authority's liability for OPEB at June 30, 2018 was \$192,265.

Plan Description

The Authority administers a single employer defined benefit healthcare plan (Plan).

The Authority provides post employment healthcare benefits to all qualified employees who met the Authority's Public Employees Retirement System (PERS) current plan requirements. The Authority pays a fixed sum that is not to exceed 100% of the medical plan premium from the date of retirement for the life of the retired employee. Depending on the PERS payment plan chosen by the employees for spousal coverage after the death of an employee, the Authority would also cover the spouse for life under the same plan. The Authority's Board will terminate all benefits at June 30, 2020, as per legislative sunset provisions, with an effective date of January 1, 2021.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

Eligibility

For regular Authority employees hired prior to January 1, 2013, five years of full time continuous employment with the Authority is required. The employee must be at least 50 years of age and have participated in the PERS plan for at least five years for health care benefits. For regular Authority employees hired on or after January 1, 2013, five years of full-time continuous employment with the Authority is required. The employee must be at least 52 years of age and have participated in the PERS plan for at least five years for health care benefits. Membership in the plan consisted of the following at June 30, 2018, the date of the latest actuarial valuation:

Active plan members	16
Inactive employees or beneficiaries currently receiving benefit payment	3
Inactive employees entitled to but not yet receiving benefit payments	_____
Total	<u>19</u>

Contribution

The obligation of the Authority to contribute to the plan is established and may be amended by the Board. For the fiscal year ended June 30, 2018, the Authority makes contributions based on an actuarially determined rate.

Actuarial assumptions

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Funding method	Entry Age Normal Cost, level percent of pay
Discount Rate	3.50% as of June 30, 2018 and 3.40% as of June 30, 2017
Inflation	2.75%
Aggregate payroll Increases	3.00%
Mortality Improvement Scale	SOA RPH-2014 Total Dataset Mortality Table fully generation using Scale MP-2017
Healthcare Tread Rate	An annual healthcare cost trend rate of 6.50% initially reduced by decrements to an ultimate of 5.0% therefore.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.50 percent. The projection of cash flows used to determine the discount rate assumed that Authority contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Change in the Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability/(Asset) (c) = (a) - (b)
Balance at June 30, 2017	\$ 246,752	\$ -	\$ 246,752
Changes Recognized for the Measurement Period:			
Service Cost	18,515	-	18,515
Interest on the total OPEB liability	7,646	-	7,646
Changes of benefit terms	-	-	-
Difference between expected and actual experience	-	-	-
Changes of assumptions	116	-	116
Contributions from the employer	-	80,764	(80,764)
Net investment income	-	-	-
Administrative expenses	-	-	-
Benefit payments	(80,764)	(80,764)	-

**June 30, 2018**

Sensitivity of the net OPEB liability to changes in the discount rate

The following presents the net OPEB liability of the City, as well as what the Authority's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.50 percent) or 1-percentage-point higher (4.50 percent) than the current discount rate:

Plan's Net OPEB Liability (Asset)		
Discount Rate - 1%	Current Discount Rate	Discount Rate + 1%
\$ 190,934	\$ 192,265	\$ 193,245

Sensitivity of the net OPEB liability to changes in the discount rate

The following presents the net OPEB liability of the Authority, as well as what the Authority's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (5.5 percent) or 1-percentage-point higher (7.5 percent) than the current healthcare cost trend rates:

Plan's Net OPEB Liability (Asset)		
Current		
Current Trend Rate - 1%	Healthcare Cost Trend Rate	Current Trend Rate + 1%
\$ 189,687	\$ 192,265	\$ 194,803

**Note 10 – Health Care Plan**

During the fiscal year ending June 30, 2018, employees of the Authority were covered by a third party medical insurance plan, the California Public Employees Retirement System (CalPERS) Medical Benefits Program, and by the Principal Financial Group for dental, vision, and life insurance. The Authority contributes to the employee medical premium and to eligible dependents medical premiums up to \$1,909 per month per family. In addition, employees receive monthly cash allowances of \$145 per employee to be applied towards premiums of the optional dental, vision, and life insurance benefits under an Internal Revenue Code Section 125 Flexible Benefit Plan.

**Note 11 - Commitments and Contingencies**

A. Litigation

Various claims and lawsuits are pending against the Authority. Although the outcome of those claims and lawsuits are not presently determinable, in the opinion of the Authority Counsel the resolution of these matters are within the self-insured retention and are not likely to have a material adverse effect on the financial condition on the Authority.

Appropriate insurance policies protect the Authority from most potential litigation effects. In addition, the Authority requires indemnification and contract provisions with its vendors and contractors that also guard against, and redirect, litigation costs and potential impact to the Authority's assets. The Authority retains authority and special counsel to defend any such actions.

B. Grant Payments

The Authority participates in federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent the Authority has not complied with rules and regulations governing the grants, refunds may be required and the collectability of any related receivables may be impaired. In the opinion of management, there are no significant contingent liabilities relating to compliance with rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies. Current year grant information is as follows:

1. Environmental Remediation Project

The \$99.3 million federal grant was paid to the Authority in three phases: \$40 million in FY 06-07, \$30 million in FY 07-08, and \$27.7 million in FY 08-09. The Army provided payments ahead of schedule and to secure a \$1.6 million credit (the last payment received in December 2008). The grant paid for contracted remediation project expenditures through June 2018.

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

○ Unearned Revenue

The Authority's share of unspent, unearned Army grant revenue at June 30, 2018 is classified as advance of earnings revenue and is recorded as unearned revenue, for financial statement purposes. It will be recognized as revenue when earned.

**Note 12 - Property Sales and Lease Income**

California Law requires that all net lease or property sale proceeds generated on the former U.S. Army Base are to be shared equally between the Authority and the governmental entity with jurisdiction over subject property. This state law is affirmed under contract implementation agreements between the Authority and its underlying jurisdictions. During the fiscal year ending June 30, 2018, no sales occurred.

**Note 13 - Contingent Receivables**

Contingent receivables are those for which there is some uncertainty of the legal obligation but some prospect of a favorable settlement. Generally, a contingency involves some future determination, e.g., judgment or settlement.

1. **\$58,073 - The City of Del Rey Oaks (DRO)**

In 2002, DRO participated in a construction project funded by the EDA grant and local matching funds. On April 23, 2002, the DRO Council affirmed the City's commitment to provide the 25% local match or \$50,457, which accrue interest at 1%, to pave a portion of South Boundary Road within the DRO city limits. DRO never paid this obligation citing insufficient resources. The Authority reports this debt as a long-term receivable on its financial statements and intends to collect payment as a deduction from the future land sale proceeds of DRO real property. The amount of \$58,073 is recorded as deferred revenue and deferred inflows of resources.

2. **\$709,704 - The City of Del Rey Oaks (DRO)**

In 2014, the Authority loaned DRO \$715,768 in funds to cover DRO's portion of PLL insurance during years of financial hardship. The original two-year term of July 1, 2013 through June 30, 2015 is extended for three years, through June 30, 2018. By November 30, 2014, in conjunction with September 12, 2014 sale of portion of DRO property on the former Fort Ord, DRO made a prorated payment of \$162,806 (including 5% interest) against the \$715,768 loan, which reduced the balance to \$597,697. DRO agrees to repay the remaining balance of \$597,697 on the loan and all accrued interest at a rate of 5% upon the sale of the remaining DRO property on the former Fort Ord or upon termination of the MOU, whichever occurs first. The Authority reports this debt as a long-term receivable on its financial statements and intends to collect payment as a deduction from the future land sale proceeds of DRO real property. The amount of \$709,704 is recorded as deferred revenue and deferred inflows of resources.

3. **\$4.1 million – East Garrison Partners (EGP)**

Monterey County (County) approved the EGP project in 2005, postponing land sale revenues to future years. A portion of this land sale revenue was due to the Authority under State law and the terms of the Authority/County 2001 Implementation Agreement. As a consequence, the Authority did not collect the deferred \$4.1M in land sale revenue and issued debt of the same amount to fund its ongoing building removal responsibilities. EGP, County and the Authority entered into a Memorandum of Understanding (MOU), which required EGP to: a) pay the Authority monthly interest payments on the \$4.1M loan that the Authority acquired in lieu of the land sale proceeds and b) repay the \$4.1M principal due in 2011 or upon termination of the MOU. In 2009, EGP defaulted on the project. A new developer, Union Community Partners (UCP) purchased the rights and property associated with the project and questions their responsibility for the principal repayments.

**Note 14 - US Army Environmental Services Cooperative Agreement Grant**

Removal of munitions and explosives of concern (MEC) by the U.S. Army at the former Fort Ord has been in progress since 1992. Several areas formerly used for military training at the former base have been cleared over the years, but approximately 3,340 acres still require specific MEC removal activities before they can be reused for key elements of the Fort Ord Base Reuse Plan. In the spring of 2005, the U.S. Army and Authority entered into negotiations to execute an Army funded Environmental Services Cooperative Agreement (ESCA) leading to the transfer of former Fort Ord 3,340 acres prior to regulatory environmental sign-off. In early 2007, the Army awarded the Authority \$99.3 million to perform munitions cleanup on the ESCA parcels. The Authority also entered into an Administrative Order on Consent (AOC) with

**FORT ORD REUSE AUTHORITY**  
**Notes to Basic Financial Statements**  
**June 30, 2018**

the U.S. Environmental Protection Agency (EPA) and California Department of Toxic Substance Control (DTSC), defining conditions under which the Authority assumes responsibility for the Army remediation of the ESCA parcels. In order to complete the AOC defined work; the Authority entered into a Remediation Services Agreement (RSA) with Arcadis, Inc. to provide MEC remediation services and executed a Cost-Cap insurance policy for this remediation work through the American International Insurance Group (AIG).

The ESCA Remediation Program (RP) has been underway for approximately 9 years. The ESCA property was transferred to Authority ownership on May 8, 2009. The FY 2018 ESCA RP field work focused in the Parker Flats, future East Garrison and interim action ranges areas of the former Fort Ord. Approximately 2,600 acres of ESCA property remain in the Authority's ownership as of June 30, 2018.

On December 17, 2008, the Authority received the fourth and final ESCA Grant fund payment of approximately \$28.6 million. Per the AOC, the majority of these funds have been transferred to AIG for payment to LFR Inc. (now "ARCADIS" company) under the terms of the insurance policies and related agreements. The Authority's administrative costs and oversight responsibility, including third-party quality assurance work, and reimbursement to EPA and DTSC for their regulatory obligations, are also funded by the ESCA grant.

On December 20, 2017, the Authority signed another ESCA amendment for \$6,846,204. The purpose of this Modification is to amend the ESCA to add additional requirements (Administrative Funds, Post-Closure MEC find Assessments, and Long-Term/Land Use Controls (LUC) Management), and to reduce the period of performance from March 30, 2037 to June 30, 2028. As a result of this modification, the maximum funding obligation has been increased by \$6,846,204 from \$99,316,187 to \$106,162,391.

**Note 15 - Office Lease**

On July 2, 2009, the Authority entered into a lease agreement for office space, with occupancy to commence on the date that a certificate of occupancy for the premises is delivered to the Authority, and shall terminate on midnight of the last day of the fifty-seventh (57<sup>th</sup>) month, thereafter. Monthly rent for the initial lease term, as determined by a current, independent appraisal, shall be one dollar seventy cents (\$1.70) per square foot, per month, for a total of \$988,000 over the 57 month period. The transaction is part of an exchange agreement whereby the Authority is exchanging land, with a value of \$988,000, as determined by an independent appraisal, for rent and tenant improvements. The Authority is responsible for a pro-rata share of the common area maintenance. The office lease agreement is scheduled to terminate with the sunset provisions of the Authority.

**Note 16 – Restatement**

The Authority implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions, as of July 1, 2017. The cumulative effect of applying GASB No. 75 has resulted in an increase to the net position at July 1, 2017 as follows:

	Governmental Activities
Net Position at July 1, 2017	\$ 44,643,318
Net OPEB obligation	<u>721,632</u>
Net Position at July 1, 2017, as Restated	<u><u>\$ 45,364,950</u></u>

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors  
Fort Ord Reuse Authority  
Marina, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Fort Ord Reuse Authority (Authority) as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated November 30, 2018.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH  
MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

Board of Directors  
Fort Ord Reuse Authority  
Marina, California

**Report on Compliance for Each Major Federal Program**

We have audited the Fort Ord Reuse Authority's (Authority) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the Authority's major federal program for the fiscal year ended June 30, 2018. The Authority's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for the Authority's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the Authority's major federal program. However, our audit does not provide a legal determination of the Authority's compliance.

**Opinion on Major Federal Program**

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the fiscal year ended June 30, 2018.

## Report on Internal Control over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

*Moss, Levy & Hartzheim*

See accompanying notes to the schedule of expenditures of federal awards

**FORD ORD REUSE AUTHORITY**  
**Notes to Schedule of Expenditures of Federal Awards**  
**For the Fiscal Year Ended June 30, 2018**

**NOTE 1**            **BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the Fort Ord Reuse Authority (Authority) presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the Authority's basic financial statements.

**NOTE 2**            **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

1. Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
2. All federal grants were direct programs.
3. There were no subrecipients of federal awards.
4. The Catalog of Federal Domestic Assistance (CFDA) numbers included in the accompanying Schedule were determined based upon program name, review of grant contract information and the Office of Management and Budget's CFDA.

**NOTE 3**            **INDIRECT COST RATES**

The Authority has not elected to use the 10 percent *de minimis* indirect cost rate as allowed under the Uniform Guidance.
