RE: S201-ITB1 Addendum 2

All,

This addendum will not affect the current schedule See RFI-1

Please note: The Bid Form requires the schedule to be submitted in **calendar days**.

The Bid opening will provide FORA with the 'apparent most responsive bidder' (AMRB).

Following the public bid opening, FORA will request the Bidders identify their bid. The Qualification Score will then be added into the calculus to determine the 'Best Value' Score. In the case of an overall tie, the Bidder with the highest qualification score will be selected. In the case of an additional overall tie, the Bidder with the highest local hire percentage (%) in their SOQ shall be selected. The AMRB will not be awarded a contract until after FORA:

1. Evaluates the Bid Material
2. FORA's Consultant validates the Bid Material
3. Interviews the AMRB
4. Posts a Notice of Intent to Award

Bidders have 5 days after the Notice to protest the Award.

The Liquidated Damage amount for:

S201-ITB1 Hazardous Material Removal = \$6,000 base + \$750 per day

S201-ITB2 Building Removal = \$750 per day

Sincerely,

Peter Said
Project Manager
